To remove Centurion Technologies SmartShield product/software from a computer,

• Download (save the removeclient.zip tool from http://nlc.nebraska.gov/LBBNC/libs/
• Extract the entire folder by right clicking the download and pressing 'Extract Files'. Make sure the removaltool.zip is fully unpackaged as there are hidden executable files that Run.exe calls for during its execution.
• Right click the 'Run.exe' file in the folder and execute as administrator.
• Press 'Uninstall' and wait for the prompt to finish and then reboot the computer.
